I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular,
I OBJECT to the definition of "inordinate amount" which restricts the availability
and the right to obtain medically necessary compounded medications by limiting
the number of prescriptions that can be shipped across state lines from specialized
compounding pharmacies.

COMMENTS: ^{or men} It is extremely important
for women to be able to receive
compounded medications in order
to receive proper dosages. We are
all uniquely created, and a "one
size (or dose) fits all" program does
not work for most of us. Pain,
anxiety & depression are just a few
symptoms that are relieved when
special pharmacies provide specially
compounded natural hormones and
make life bearable for so many.
Thank God for doctors & pharmacies
that work to restore health, naturally
and accurately. Placing limitations on prescriptions
would surely limit me & others from getting proper treatment.
Me & my doctor know what's best
for me, the government doesn't! C1917
